

Recyclo RECYCLABLE WASTE GUIDE

Definition:
General waste that is capable of being recycled.

WHY DOES IT MATTER?

Our world faces severe environmental challenges, including climate change, loss of biodiversity, and resource depletion.

- Despite a gradual decrease in both domestic and non-domestic waste generated, recycling rate has decreased by 10% in the past 10 years.
- Among vast waste types, only 5% of plastic was reported to have been recycled, followed by glass 8%, paper 31%.

WHAT IS RECYCLO'S MISSION?

Allow individuals to locate the most convenient recycle location appropriate to the type of waste at hand.

Acknowledge everyone has a role to play in shaping the future of a more sustainable world.

RECYCLABLE WASTE RECYCLE LOCATIONS:
